

Kemet

Kemet CO-42 Cleaning Fluid

Kemet CO-42 is a cleaning and degreasing fluid with many of the performance characteristics of 1,1,1 Trichloroethane, but without the ozone depleting properties. It is designed for cold use and may be applied by spray, brush, cloth or full immersion. However, it is not approved for use at elevated temperatures or in Ultrasonic Cleaning Machines.

Features

- Immediate substitute for 1,1,1 Trichloroethane
- Contains no ozone depleting substances
- Highly efficient degreasing power
- Ideal evaporation rate
- Immense cost saving potential

| CO-42 Cleaning Fluid | | |
|----------------------|----------------------------|--------|
| Size | Container | Code |
| 450 ml | Plastic with trigger spray | 302103 |
| 5 Litres | Metal | 302102 |
| 25 Litres | Metal | 302101 |

Benefits

- **Effectiveness-** CO-42 cuts through contamination such as lapping and polishing residue, grease, oils and general surface contamination.
- **Safety** – CO-42 is the safe alternative to chlorinated solvents and does not cause nausea associated with such products.
- **Evaporation** – CO-42 is quick drying , but not so fast as to leave dried staining on the surfaces of products. The controlled wetting and evaporation properties of CO-42 make it extremely versatile and efficient.
- **Versatility** – able to act as an extremely efficient cleaning agent for most metals, most plastics, ceramic, glass and other similar materials (Always test small area first).
