

Kemet Ultrasonic Cleaning Fluids

Kemet offer the widest range of ultrasonic cleaning fluids. These specialist formulated concentrated detergents are available in acid, neutral and alkaline types.

Kemet ultrasonic cleaning fluids work by reducing the surface tension and intensifying the ultrasonic cavitation. They dissolve and bind the dirt which has been loosened by the ultrasonics.

Description	Chemistry	Approx pH	Application	Size	Code
Type I	Acid	1	Rust & oxide removal on all materials. Restores white ceramic.	5 Kg 20 Kg 210 Kg	360480 360481 360482
Type N	Neutral	7	All materials including plastic.	1 Litre 30 Litres	360404 360405
Type A9	Light Alkali	9.5	General purpose – All metals.	5 Kg 20 Kg 210 Kg	360477 360478 360479
Type A	Alkali	13	General purpose and all steels.	1 Litre 5 Litre 25 Litre	360401 360402 360403
Type O2	Alkali	13	General purpose and all steels.	5 Kg 20 Kg 210 Kg	360920 360921 360922
Type H14	Strong Alkali	14	Mould cleaning, carbon removal, steels, ceramic, glass.	5 Kg 20 Kg 210 Kg	360474 360475 360476
M99	N/A	N/A	Removes water moisture. Provides corrosion protection.	20 Kg	360486

Features

- Highly efficient ultrasonic detergents
- More than 90% biodegradable
- MSDS supplied
- Full technical advice and specification datasheets available
